

## Barry Stamp Says Reduce The A518 Speed Limit Now

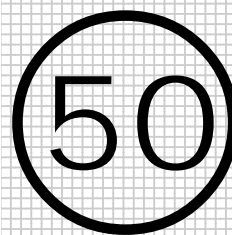

Over the past couple of years the number of fatalities on the A518 between Haughton and Newport has continued to rise. In response the County Council and Police have agreed that what was needed was a few extra signs and the occasional visit from a mobile speed camera team! **Barry Stamp believes this is not enough.**

**Barry** is calling for positive action to improve safety on this road. As part of this campaign he is demanding that the County Council reduce the speed limit and use permanent and regular mobile speed cameras to ensure the new limit is enforced.

To help persuade the Council to make these changes he is organising a petition and needs your help.

How many more of these signs are going to appear along the A518 before the County Council and the Police make a real effort to cut the number of fatalities?

Turn over to sign  
**Barry Stamp's petition**  
for a 50mph speed  
limit on the A518

When **Barry Stamp** was County Councillor for Gnosall he fought hard to get the Council to produce an A518 Route Strategy. This document highlighted the road safety problems and listed improvements which could be made. **Barry** also fought to get money put in to the Council budget to get these works carried out. However he was unhappy that while the document stated that excess speed was a problem on the road there was no plan as to how this could be tackled. **Barry** did not think this was good enough and had already started pressing the Council on this issue. However since losing his Council seat very little has happened! It appears the money which was in the budget is no longer there; only some elements of the work have been carried out; nothing has been done about the excess speed; and recently it even appeared that the A518 Route Strategy had been forgotten as the County Council and the Police agreed that more work was needed to identify safety problems with the road!

Problem? Grumbles? Idea? Information?  
Give **BARRY STAMP** or **Diane Key** a ring on **822723**

# What Has The County Council Done To Prevent Further Deaths On The A518?

**Put-up some extra beware of the deer signs!**

**Installed a few bend warning chevrons and marker posts!**

**And now they intend to put down anti-slip surface in some places so traffic can travel even faster round some of the bends!**

**Is this really enough ..... ?**

The County Council have just decided they are not going to do anything about the narrowness of the A518 between Willey Lane and the canal bridge in Gnosall.

Once again they don't seem bothered about the safety of local residents.

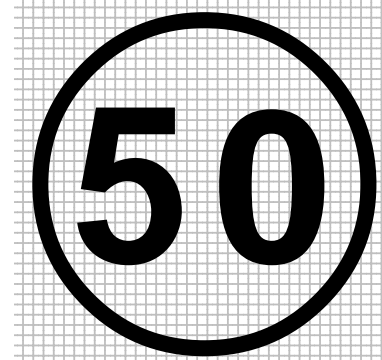

### Please sign Barry Stamps petition to reduce the speed limit on the A518

If you would prefer you can sign the petition on-line at [www.barrystamp.org.uk](http://www.barrystamp.org.uk)

If you would like a petition form so you can get your family, friends, or work colleagues to sign to please give Barry a ring on 822723. He'll be only too pleased to send you a copy.

## Cut the A518 Speed Limit to 50mph

I call upon Staffordshire County Council and Staffordshire Police to reduce the speed limit on the A518 between Haughton and the Shropshire border at Newport, outside of the current 30mph and 40mph zones, to 50mph.. I also call upon both bodies to install permanent fixed speed cameras and ensure that more mobile speed cameras are used to enforce this new limit
