

Royds Close Special - May 2006

FOCUS

From Councillor Barry Stamp

More Broken Promises From County Council

Since I last wrote to you about the new street light in Royds Close I was told by the County Council that despite any other commitment they had, the light would be installed by the end of April at the latest!

How many
more times are
they going to
fob us off?

As you will realise this date has come and gone and still no work has been carried out!

I have again contacted Steve Bradbury at the County Council and have now been promised the work will be done in the next six weeks!

In an attempt to put even more pressure on the County Council I have written to Cllr. Terry Dix - the Leader of the Council, Cllr John Wakefield - the Cabinet Member responsible for highway matters, and Nigel Pursey - the County Clerk and Chief Executive, telling them just what I think about the delay and asking for their help in getting something done.

I am appalled at this situation which I think just proves the County Council Lighting Department are just not interested in Haughton! However I do not intend to give up and will continue to fight to get the light installed!
